

Bowraville feral deer information session

Join North Coast Local Land Services for light refreshments and an information session on the feral deer situation in your local area.

At the session, you will:

- Learn about the species and characteristics of feral deer in your area.
- See first-hand and understand the threat feral deer pose to native vegetation, wildlife, and agriculture.
- Discover how Local Land Services supports landholders who are impacted by feral deer.
- Get information on feral deer management and discover how you can help protect our area from feral deer.

Date and time
